Work Experience

7 Months | **Jan 2020 - Present**　　**Android App Developer**
Techverx

As an **App Developer** - I performed below-listed tasks & duties:

- Design and build state-of-the-art applications for the Android platform
- Collaborate with cross-functional teams to describe, design and ship new features
- Work with external data sources and APIs
- Unit-test code for robustness, which includes edge issues, usability, and general reliability
- Work on improving application performance and bug fixes
- Constantly discover, evaluate and implement new technologies to maximize development efficiency

Soft-Skills & Qualities:

- A Team player with excellent communication skills.
- Able to work under deadlines and ready to go the extra mile to achieve results.
- Motivation towards learning and a quick learner with a strong desire to succeed in whatever challenge I am given and always willing to experiment.
- Honesty and commitment.
- Exceptional negotiation skills and convincing power.

Projects

May 2020 - Jul 2020　　**Smart Parking**
Freelancing

Tools: Android Studio, Java, Google Map, XML & Firebase-Database

This whole project is designed and created by myself. The idea is about search to availabile parking around our location via Smart Parking App.

Jan 2020 - May 2020　　**Travelers Lodge**
Freelancing

Tools: Android Studio - Java, XML,Google Map, Firebase-Database

I operated & complete the whole project by myself. It was my final year project. The idea is that the travelers as known as tourist can check and availablility of lodges in any kind of areas.

Dec 2019 - Present

Virtual Clinic
Freelancing

Tools: Android Studio- Java, XML, Database

I'm serving as an assistant developer in this project. The whole project is creating for delivering the online medical facilities to patients.
